## Resume Preparation: A Guest Lecture

An Interactive Session was organized on "RESUME WRITING" on 18th January, 2018 for the students of B.Pharm and M.Pharm by Mr. Depinder Kumar from Abbot Pharmaceuticals, Chandigarh Branch.

The session began with a discussion of the importance of having a well-written resume. He discussed the key factors that can make a resume look impressive to an interviewer, such as leadership, teamwork, and so on.

It was also stated that the career goal should be stated clearly and simply. The student should be clear about his or her goal of joining any company as well as his or her life goals. He went on to say that students should highlight their skills in their resumes to make them look more impressive. There should be a resume for each job profile and job requirement.

Furthermore, he stated that the academic section of the resume should be in data format rather than the traditional

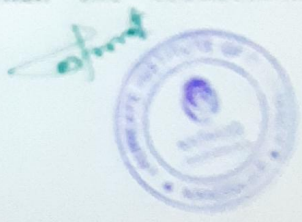

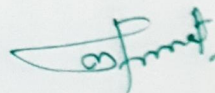

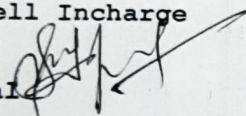

table format. The percentile should be used to evaluate the student's academic performance. The email address listed on the resume should be in proper format, and short forms should be avoided.

He also mentioned that the cover letter should be impressive. In the resume, the student should only include true facts and avoid making any false statements. Following the true statements, a clarifying explanation should be provided.

When submitting a resume, keep in mind that it should not be more than one page long and should include a photo of the student. He responded to the students' questions. The session was very interactive, and it also taught students how to make their resumes look impressive.
