Seminar on Interview Skill

The seminar was held by the Laureate Institute of Pharmacy, Kathog's Placement and Training Cell to improve students' interview skills. The session began with a definition of the term "interview." Mr. Baldev Thakur (HR Manager Macleods Pharmaceutical Baddi) also spoke about the process of interview preparation. He emphasised two main points that should be kept in mind when preparing for an interview: that the interview is conducted in both directions and that the interview is conducted in both directions (interviewer evaluating you and you evaluating organisation).

The interview should be interactive rather than just answering the questions. He then went on to talk about how to prepare for a pre-interview. Before giving an interview, he also mentioned that one must first understand oneself, their strengths, and their priorities. He asked students to attend an interview after conducting extensive research on the job profile, key organisational factors, corporate culture, and work environment. He also spoke about certain commonly asked questions in an interview like, Tell me about yourself? What can you do for us? Why this organization? Why this job? and so on.

The next part of the session focused on the candidate's body language, with Mr. Thakur emphasising some very basic and important points. He stated that the candidate must be composed and that during the interview process, the candidate should always look into the eyes of the interviewer and maintain a gentle smile on their face.

Mr. Thakur also discussed the candidate's appearance, including the dress code that should be followed while attending an interview. He also provided some pointers, such as being confident and having a positive mindset about the interview while remaining humble to the interviewer, and also when a candidate is loud and fast, the interviewer may think that he or she is not confident and does not have a valid point of view.

Mr. Thakur, who is an expert on "Interview Techniques," advised that one should always structure oneself in the proper position and sit comfortably throughout the process. He even insisted that candidates bring a pen and a blank piece of paper to an interview so that they could explain themselves if necessary. With a confident, fearless, and gentle smile on one's face, one must be very precise and clear about the subject being discussed. The meeting was very productive and interactive. It was concluded with a thank you note and the presentation of a memento as a token of appreciation.
