Report on the Celebration of World Earth Day

World Earth Day is observed globally on April 22nd of each year with the aim of raising public awareness of the importance of protecting the environment and the planet. Around this day, everyone around the planet is reminded to engage in environmentally responsible activities. People come together to pledge to live more sustainably. The Laureate Institute of Pharmacy's ECO CLUB observed World Earth Day on April 22, 2024, with the theme "Planet vs. Plastics." By modeling environmentally responsible activities, Laureate Institute of Pharmacy hopes to empower its students to become vocal advocates for environmental conservation. Programs on campus called Eco-Clubs that are dedicated to green initiatives are a great way to start students down a meaningful path toward environmental protection. The principal welcomed each member and gave an explanation of the theme. Rather, other employees participated in this celebration. Following the commencement of the planter push and the eventual commencement of the campus cleaning procedure various mango trees planted during this drive. Dr. CPS Verma gave the vote of gratitude. At 03:00 PM, the program was finally effectively concluded.
